Table of Contents of the files contained on this computer disc.

Read this First:

This is not a DVD which plays on your TV. This is a computer data DVD disc which will only open on your computer. Do not insert into a DVD player.

This Table of Contents is designed to make the navigation simple to use and watch / listen on your computer. However, many users do not use this table of contents menu and choose to copy the mp3 files to their IPOD or other portable listening device and simply listen to the course in sequence based on this menu. (We recommend you print out this table of contents along with the Seminar Manual, which is contained on this disc in a PDF format)

We have attempted to include as much of the live seminar content as possible and appropriate to an at-home audience. We included audio from all sessions available. We included select bonus video of specific sessions and all of Bart's studio quality "Handwriting Interviews". If you ever decide to teach a local seminar, you should consider using these video files as part of your teaching process.

Technical Stuff / How to Use:

Simply click on the title to be taken to the appropriate section (Example: Clicking on "Success Traits" will bring you to the Success Traits section which is found below. You can scroll down or click). Once you are in the correct section, you will find the audio files (sometimes 1, 2, or 3 files for the same lecture) and in some sections you have a video to view on your computer.

All videos are in QuickTime Movie format, you must have QuickTime installed in order to watch the videos. Quicktime works on all PC and Mac computers, but you must have the Quicktime free software installed.

- Click [here](#) to get QuickTime, if you do not already have it installed.

All handouts are in Adobe PDF format, you will need Adobe Reader or Adobe Acrobat in order to open them.

- Adobe Reader is free and can be downloaded from the adobe website

Handwriting Conference 2010 Seminar PDF Handouts

Each lecture will have a PDF Handout attached to it unless noted otherwise, we suggest you print these out in 8.5x11 three hole paper and place in a binder for reference while listening to the audio files. All participants were given these PDFs in a binder and referenced them often during the lectures.

Or

If you would like the all the handouts inside of a single file that follows the same sequence as the table of contents below, get the Seminar Handout here: [Seminar Handout.pdf](#)
